DAN PERKATAAN :

CONTACT CLEANER LUBRICANT 400 ML AEROSOL

CONTACT CLEANER LUBRICANT 400 ML AEROSOL

To remove or prevent the build-up of oxides and other contaminants on the surface of switches, connectors and other electrical equipment. These types of cleaners can remove dirt, oil and grease from the equipment which ultimately improves the performance by preventing contact failure.

It ensures long-term protection from corrosion and arcing by depositing a thin film of contact lubricant.

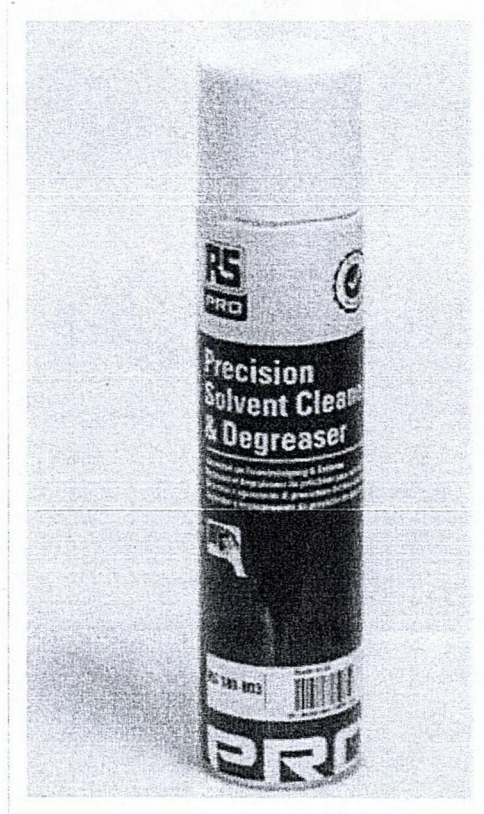

Features and Benefits

Reduces electrical resistance across the switch or connector

Shelf life of 36 months

SOLVENT CLEANER 400 ML AEROSOL

These fast drying solvent cleaners are the final rinse to the circuit board or assemblies that you have just cleaned. As these cleaners are suitable for many electrical applications they are perfect as they quickly and efficiently remove flux residues after soldering. As the solvent cleaners offer excellent degreasing properties, they also offer a fast drying/ fast evaporation rate leaving no residues.

Features and Benefits

- Fast evaporation/ drying
- Excellent flux, oil, grease, conformal coating removal properties
- Harmless on most plastics, rubbers, elastomers
